Thanks to Dema Betonix Antique paint, an antique effect can be applied to the surfaces on which Betonix is applied. Betonix Antique

Thanks to Dema Betonix Antique paint, an antique effect can be applied to the surfaces on which Betonix is applied. Betonix Antique can be lightened by diluting it with water according to the desired color tone. There are matte and glossy options. After Betonix Tumbled is applied to the surface with a roller, it is wiped with a sponge to ensure that the product fills the pores. Betonix Aging, which fills the pores, makes the Betonix application appear shadowy and more prominent. You can contact us to get more information about the product.

Pearl
